

# TEXAS YOUNG REPUBLICANS

## CONVENTION 2021

The Texas Young Republicans are the largest group of young, conservative leaders in the nation. We use our unique demographic position and network of talented activists to ensure Republican's control Texas for decades to come. We do this by identifying, recruiting, and engaging conservative and libertarian Texans between the ages of 18 and 40 through a combination of aggressive media and grassroots activism.

At the heart of our efforts are our members – young activists from across the state who are determined to keep Texas red. On September 17th, these activists will gather in Round Rock for our state convention. During this convention, we will elect our officers, perfect our constitution, and (most importantly) kick-off our fall deployments.

Over 30 of our members currently serve in local elected office around the State of Texas, with 11 having been on the ballot this Spring. Many YR Alumni have gone on to serve in state and federal offices. For years, younger conservatives have been marked as the future of the Republican Party. Respectfully, we disagree. We are the party. One of our major focuses over the last year has been to encourage YRs to run for party, local, and state offices.

Respectfully,

Hayden Padgett  
Chairman  
Texas Young Republicans

# TEXAS YOUNG REPUBLICANS

## CONVENTION 2021

## ABOUT US

We at the Texas Young Republicans, are an official Republican Party of Texas auxiliary focused on Republicans ages 18 - 40. We have over one thousand members and 20 chapters across the state, and we are growing.

We are determined to be a force in Texas politics, advance Republican values, and help elect Republican candidates at every level of government. We are the front line in a nationwide battle for the hearts and minds of the next generation.

## 2021 LEGISLATIVE PRIORITIES

### Constitutional Carry

Safeguard the right of all Texans to bear arms by adopting Constitutional Carry.

### Abolish Abortion

Supporting bills that promote adoption, supporting Prenatal Non-Discrimination Act, the Heartbeat Bill, and the ultimate end of abortion in Texas.

### Government Reform

Protecting the freedom of Texans to engage in economic activity without abusive "emergency" regulations, and restoring the proper balance of power between the Texas legislature and governor.

### Cannabis Policy

Penalty reduction for personal possession of small amounts of cannabis. Expand the Texas Compassionate Use Program to allow greater access to medical cannabis for Texans.

### Bail Reform

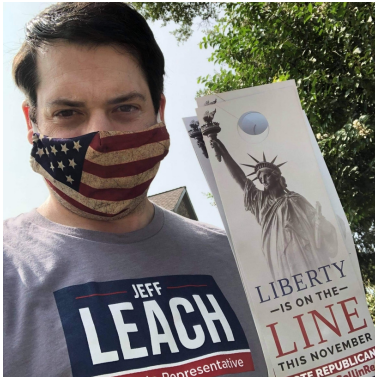

Bail in Texas should be based only on a person's danger to society and risk of flight, not that person's ability to pay.
